

ISO3834

Quality for Welding

Welding Process and Quality Standard

There is increasing demand for quality and safety management concerning products manufactured through the welding process. As the welding process is complicated and requires professional handling, it is important to ensure that welding processes are carried out according to requirements using appropriate control measures.

ISO 3834 BY ALLIANCE BUSINESS ASSURANCE

Alliance can certify your organization to ISO 3834-2. This demonstrates that you possess qualified welders and robust welding processes and your organization has mastered continuous equality in quality.

Many clients in the maritime, offshore, and petrochemical and rail infrastructure view ISO 3834-2 as a valuable tool to ensure that the product conforms to the high quality they require. Additionally, several European standards specify the ISO 3834-2 (v/h EN 729-2) standard as a requirement for products manufactured by welding processes.

Certification by Alliance will give customers and stakeholders the confidence that your organization's welding processes are managed in a professional and reliable manner, and to assure the quality of your products.

We look forward to success you in the world!

ABOUT US-ALLIANCE REGISTRAR

Alliance International Strategic Registrar's goal is to provide the highest Management Systems assessment, so that our Clients are recognized as the industry standard for excellence. We will distinguish ourselves through dedication toward improving our Client's Management Systems.

We understand the importance of impartiality and conflict of interest to ensure objectivity of our Certification activities. We will foster developmental relationships with the Clients we serve to achieve Client satisfaction. Our logo shall be perceived as a symbol of Quality and Excellence.

Alliance is an internationally accredited

Management System Registrar offering a comprehensive suite of services to those organizations wishing to achieve registration.

Alliance has been built on decades of collective experience within the manufacturing and non-manufacturing industries. Our senior staff played a major role in developing the content of the Quality System Requirements and piloting the first Quality System Requirement witness audit, setting the standard by which the industry is measured.

OUR POLICY is to provide exceptional levels of customer service combined with common sense interpretations of the Standards you wish to achieve. Based on

our extensive background within the quality industry we have developed a "thorough but fair" assessment approach to the registration process. This approach, welcomed by our clients, has developed a good Improvement Partnership and earned Alliance an enviable reputation within our industry. Business leaders have put the dedication and experience of Alliance personnel to work for them and you can too

We also believe registration should be used as a development tool for your organization. Registration is only the beginning of improving your overall business. We will help by identifying opportunities for you to continue to develop your business processes to ensure not only conformance to the intent of the Standard but improvement in all aspects of the company

The logo of Alliance/ARC is the degree of public confidence and trust, which is established by customer focus, the integrity of its leadership, operating principles as well as impartial and competent assessments.

During a recent survey of ISO registrar performance, Alliance/ ARC was ranked among the top in overall customer service.
