International Strategic Registrar

Re: To whom it may concern

Dear Client's,

In recent weeks, I was informed that one of our client had been contacted by Alliance "International Registrar LLC", indicating that our organization Alliance Registrar & Inspection Services "ARIS", formally known as Alliance Registrar "ARC" (Canadian Incorporated company) is operating under their name. This is totally false and far from the truth.

ARC, use to be associated with Alliance Registrar LLC, out of Michigan USA few years ago. However, once realized that they directly were no longer accredited by ANSI-ASQ National Accreditation Board (ANAB), decision was made to terminate and not to continue and have any association with them.

ARIS has been accredited by NAAB and continue to be member of ANSI of United State of America. Our middle east representative (Rayvarzan Keyfiat Co.) is also accredited by NACI of Iran and we are in process of making application to UKAS for ISO 9001 and other related accreditation.

Please feel free and don't hesitate to contact our local office in your region or our corporate administration office in Toronto Canada.

Yours truly,

ALLIANCE
International Strategic Registrar
